SCIENCES DE LA SANTÉ

EUROPEAN AND INTERNATIONAL STUDENT GUIDE

CAMPUS VAUBAN

EDITO

You have wished to move to the FMMS (Faculty of Medicine, Maieutics and Health Sciences): all the teaching and administrative teams are happy to accompany you in this process of discovery.

The months that you plan to spend with us will be months of work and an important moment of life, of experience sharing, which we hope will be as pleasant as possible.

You will follow your practical training in the Groupement des Hôpitaux de l'Institut Catholique de Lille (GHICL). During these internships you will meet students from other health training courses, you will discover new ways of understanding medical care, different ways of functioning of health care structures, which will contribute to enrich your learning.

You will also be able to observe project approaches in clinical research, a scientific approach with an ethical concern, and participate in their implementation.

Thank you for choosing Faculty of Medicine, Maieutics and Health Sciences, we remain at your disposal to accompany you for the time necessary.

Patrick Hautecoeur,

Dean of the Faculty of Medicine, Maieutics and Health Sciences

INTRODUCTION

The Catholic University of Lille (France), founded in 1875, has 5 faculties including the Faculty of Medicine, Maieutics and Health Sciences (FMMS), 18 "grandes écoles" and institutes and a 1000-bed hospital group (GHICL). It's the largest private non-profit faculty in France, with 35,000 students, including 2,000 at the FMMS.

The excellence of its reputation is due to its innovative and interactive teaching methods, with its pedagogical research centre "prismm.univ-catholille.fr".

The Catholic University of Lille was one of the pioneering universities in the field of international mobility. In keeping with its tradition, it benefits from intense international activity due to partnerships with numerous universities on all continents, including 50 partner universities for the FMMS.

You have chosen the Faculty of Medicine, Maieutics and Health Sciences (FMMS) of the Catholic University of Lille : Welcome to us!

You are going to carry out a stay abroad as part of your studies thanks to the European ERASMUS+ programme and/or inter-institutional agreements.

In order to facilitate your stay, during which you will be immersed in French culture within our faculty and hospitals, and to benefit from it, we suggest you read the following notes and advice carefully.

Each international mobility program is managed for each student to optimize the quality of his or her welcome and the pedagogical quality of his or her stay at FMMS.

For any information, please do not hesitate to contact Karine Zaborowski, ERASMUS coordinator and in charge of international relations at the FMMS:

karine.zaborowski@univ-catholille.fr

- 10** ECTS AND VALIDATION
- 11** PRACTICAL INFORMATION
- 13** ANNEXES

ADMISSION AND REGISTRATION PROCEDURES

ADMISSION AND REGISTRATION PROCEDURES

LEARNING AGREEMENT

The **"learning agreement" is your guideline:** it has been validated between the Erasmus coordinator, in charge of student mobility at your home faculty, and the Erasmus coordinator.

It summarises your training requests and their dates. It has been drawn up so that your wishes are compatible with the content and planning of the courses and/or the dates of hospital internships proposed by the FMMS.

This document must be finalized and reach the FMMS at least 6 months before the planned date of your stay.

As soon as you arrive: you must go to the International Relations Office (FV10) on the ground floor of the FMMS at 56 rue du Port, 59000 Lille in order to register.

AGORA: THE TOOL FOR YOUR REGISTRATION

AGORA is the common intranet for the students of the Catholic University of Lille and therefore for the students of the FMMS. You will find the catalogue of all the courses, information on conferences, seminars, and all the activities of the FMMS and the University.

All the information concerning possible changes of course dates, internships or exams are on this site, the faculty is not in charge of informing you individually.

When your registration to the FMMS is officially validated, you will automatically have access to the AGORA platform. You will benefit from a private messaging system thanks to a password that will be automatically sent to you. Your private e-mail address will be available throughout your stay, according to the following model: **lastname.surname@lacatho.lille.fr**.

It is necessary to provide AGORA with your contact details: postal address in your country of origin, the address of your accommodation in Lille as well as your telephone number and the contact details of the person in charge of international relations at your home university (name, e-mail address, telephone number).

REQUIRED DOCUMENTS TO VALIDATE YOUR REGISTRATION

You must upload the following documents to AGORA:

- Identity document,
- Photo (JPEG format)
- Last transcript of records,
- Resume,
- Cover letter,
- Certificate attesting to your language level (minimum) B2 in French
- Official letter of nomination from your university
- European Health Insurance Card (for European students)
- NOMINATIVE Certificate of Liability Insurance (for ALL students)

*Please note that it is not possible to return to the form once it is saved: you must prepare the elements **BEFORE** saving. We will not be able to add documents after registration and if your file is incomplete, it will not be validated.*

REGISTRATION SCHEDULE AND STUDENT CARD:

Your registration can be taken into account if the above elements are filled in on the AGORA platform:

- > **Before 15 June** for a stay during the autumn semester or a whole year (from 01 September to end of February)
- > **Before 15 November** for a stay during the spring semester (from 01 March to 21 July).

Attention: There is no summer semester (no internship after the end of July).

A student card will be given to you by the international relations office upon your arrival. It will give you access to the University buildings, the FMMS, the university restaurants and all the advantages reserved for students.

We proceed with your internship applications after your official acceptance.

THESE APPLICATIONS ARE YOUR RESPONSIBILITY AND CANNOT BE CHANGED DURING THE YEAR OUT OF RESPECT FOR THE SERVICES!

LANGUAGE LEVEL

The minimum level required in French for your stay at the FMMS is B2.

Courses are given in French. Also at the hospital, the supervising teachers will address you mainly in French. (We indicate in the "Internships" section of this guide the services that practice English).

MANDATORY HEALTH INSURANCE

Medical certificate

The French government asks universities to check the health of foreign students. Consequently, we ask all registered foreign students to fill in the form (in the appendix) with a doctor before their arrival in France, and to hand it in to our University Health Centre before their arrival (by email) or on arrival (directly to the CPSU).

This procedure is mandatory to register.

The document is attached to the guide and will be sent to you by email.

It is MANDATORY to be filled in and sent back to the address: cecile.masset@all-lacatho.fr

> Please indicate your surnames, first names and your registration with the FMMS.

Health insurance

- > **For European students:** you must scan your European Health Insurance Card on AGORA.
- > **For international students:** we need a health insurance certificate concerning you as well as a compulsory repatriation insurance. The date of validity of the insurance must cover your entire stay at FMMS.
- > **For ALL STUDENTS:** you MUST take out a PERSONAL CIVIL LIABILITY insurance. The date of validity of the insurance must cover your entire stay at the FMMS.

Social security

You can also register for a stay of more than 3 months with the French health insurance, called "Social Security". This is free of charge. And allows coverage of certain medical expenses in France: <https://etudiant-etranger.ameli.fr/>

THEORETICAL TEACHING (THE COURSES) AND TEACHING AND PRACTICAL COURSES

THEORETICAL TEACHING (THE COURSES) AND TEACHING AND PRACTICAL COURSES

The academic year is divided in 2 semesters

- Autumn semester: from 01 September to February
- Spring semester: from March 1 to July
- There is no summer semester (no internship after July)

During the summer period (July-August): teaching activity in hospitals is slowed down with fewer supervisors and the administrative services of the faculty are closed from the end of July to end-August. There is no reception or follow-up possible.

PEDAGOGY

Teaching schedule

For all years of study, teaching is organized in modules (*theoretical teaching modules*).

Each module consists of several "course units" which correspond to different disciplines. For example, the module "*theoretical teaching A - FASM1*" consists of the following course units (disciplines): *cardiology-vascular, pneumology, dermatology...*

The student cannot choose to take course units with overlapping dates and times: you may choose 1 or more course units (disciplines) within the same module.

The programme of the course units you will follow must be defined in advance in the "**learning agreement**" established BEFORE your arrival with the person in charge of international relations at your institution.

All courses take place at the faculty and are taught in French.

The teaching method is interactive: you are advised to study the course subjects beforehand so that you can actively participate in the discussions and exercises.

You can access and use "I-campus", a computer platform where you can find certain courses and consult documents related to these courses: <https://icampus.univ-catholille.fr/>

.....
**Your AGORA login details
are required to access them.**
.....

For each course, there are references from each college of specialties. You can follow the sites, information and documentation of the courses you want (pneumology, neurology, cardiology, rheumatology...) by following this link: <https://cncem.fr/liste-des-colleges>

Looking for your classroom ?

Find it with the online schedule on:
<https://planning.univ-catholille.fr>

Instructions for use:

- 1 Click on the link
- 2 Top left, go to "promotions"
- 3 Next to it, there is an icon in the shape of a loupe: type "FMMS" > you will see all the promotions.
You will be able to choose yours and the courses you are looking for

TEACHINGS AND PRATICAL INTERNSHIPS

At the faculty

You can benefit from specialized teaching by simulation on high-tech mannequins. This tool, called "Prisimm" is intended for all student promotions for the acquisition of skills and the realization of practical gestures:

<https://prisimm.univ-catholille.fr/>

Hospital internships

The GHICL means: Groupement Hospitalier de l'Institut Catholique de Lille. It groups together several establishments / clinics and hospitals. Depending on your choice of disciplines and internships, you will be located either at Saint Philibert Hospital (SP) or Saint Vincent de Paul Hospital (SV).

Organization of the internship

The program of the internships must be defined in advance in the **"learning agreement"** established BEFORE your arrival with the person in charge of international relations in your institution. As the number of students in each department is limited, no changes will be possible after your arrival.

In the departments marked with an asterisk you will be able to benefit from language assistance in English.

Internships are not remunerated.

Transport to and from the hospital will not be reimbursed.

On arrival you must report to the secretariat of the department in which you will do your internship.

It is necessary to bring a white coat and a stethoscope.

Any internship in a given discipline has a minimum duration of 3 weeks (35 hours of presence per week) and a maximum of 8 weeks. It takes place from 8 or 9 am to 5 or 6 pm.

You must choose each service for a minimum of three consecutive weeks.

Evaluation of your internship

The evaluation of the internship will take into account your skills, your attitude, your punctuality and your motivation in a hospital environment because you will be immersed in the professional world and subject to its rules.

Before the beginning of your internship, the FMMS International Relations Officer will give you an evaluation form on which your level of education and the duration of your internship will be specified. You will have to give it to the responsible of the hospital department for validation and comments.

This original document (*photocopies are not accepted*) is then to be hand delivered to the FMMS International Relations Office.

Professional specialist and locations

HOPITAL SAINT PHILIBERT	HOPITAL SAINT VINCENT DE PAUL

Hospitals are well served by public transportation, especially the metro (line 2). You can also get around by the public bike V'lille: www.stations-vlille.fr

ECTS AND VALIDATION

Theoretical courses and practical placements are assessed for ERASMUS students in ECTS credits according to European standards. ECTS credits are awarded on the basis of 60 credits per academic year (including theoretical and practical teaching).

VALIDATION OF THEORETICAL TEACHING

For ERASMUS students, each course unit is assigned ECTS credits. ECTS credits are allocated to a course unit in a given discipline, not to individual courses. As a reminder, a module is a set of course units.

In order to be awarded ECTS credits, the student must comply with the evaluation rules prescribed by the institution. It is not sufficient to simply participate in the courses.

The student must submit to the evaluation rules prescribed by the host institution.

The number of ECTS credits awarded to the student is a fixed number and is the same for all students who have passed the evaluation.

The quality of the student's work is expressed in grades.

Ranking ECTS

ECTS

Note Definition

A	EXCELLENT - outstanding performance with only minor errors
B	VERY GOOD - above the average standard but with some errors
C	GOOD - generally sound work with a number of notable errors
D	SATISFACTORY - fair but with significant shortcomings
E	SUFFICIENT - performance meets the minimum criteria
FX	FAIL - some more work required before the credit can be awarded
F	FAIL - considerable further work is required

The allocation of credits is associated with A, B, C, D, E but not FX and F.

TRANSCRIPT OF RECORDS (TOR)

The "Transcript of Records" will be prepared at the end of each semester, after evaluation of course units and hospital placements. It will be given to you by mail (and postal address if you ask for). The indicative delivery time is 6 weeks after the end of the semester. The deadline for the finalisation of the TOR for the spring and full year is the end of July.

The TOR does not contain details of the placement grades, only the average of the placement grades. You should keep your placement sheets in case you need them at your university.

LES EXAMS

Different course units (disciplines) take place every semester.

The exams take place in the form of MCQs (Multiple Choice Questionnaires) or progressive files: these are specific evaluation methods that are explained to you during conferences organised by the FMM (planning on Agora).

You must register on Agora for the courses in order to be automatically registered on THEIA, our computerized examination platform.

You will take your exams either on a digital tablet (with THEIA) or on a written copy.

Concerning your THEIA account, it's important to log in as soon as your accounts are created and to practise the exercises provided. Make a note of your login and password so that you can enter them on the day of the exam.

You will have the same time per exam as French students. It is possible to have an Anglo-French dictionary checked before each test to avoid fraud.

The results will be sent to you by email. They will be available at the international relations office on request.

In case of failure: If you do not obtain the average (less than 10/20), a make-up exam is organised with specialist health professionals.

This is a 15-minute oral test during which you will have to answer a question or discuss a clinical case. You will have 15 minutes of preparation time before the test.

These oral "rattrapages" are organised approximately one month after the exams. Precise information on the dates will be available from the beginning of the school year on Agora.

These rattrapages are evaluated as strictly as the written exams. It is recommended that you prepare them seriously. The deadline for catch-up is July.

We ask you do not take your return tickets until you know the dates of these rattrapage orals.

VALIDATION OF INTERNSHIPS

Only the faculty is authorised to validate the traineeship and to allocate ECTS credits to it according to the evaluation sheet you will have submitted. The evaluation sheet must be the original, copies are not accepted.

Each full week of internship is equivalent to 1.5 ECTS.

ECTS credits are only allocated if the week of the traineeship is complete. No additional credits will be allocated if one or more additional days are completed.

On the transcript of records, only the number of weeks of internship will be reported, not the number of hours.

It is recommended that you keep a copy of the internship evaluation sheets on which the number of weeks of internship completed is indicated.

In case of unjustified absence or repeated delays, the internship will not be validated.

**PRACTICAL
INFORMATIONS**

PRATICAL INFORMATIONS

PRÉSENTATION GÉNÉRALE

- Site of University: www.univ-catholille.fr/en/node/50
- Site of the faculties: <https://lesfacultes.univ-catholille.fr/en>
- Virtual visit of the FMMS: Faculté de Médecine et Maïeutique - Institut Catholique de Lille (vip-studio360.fr)

WELCOME SESSION

A welcome session for foreign students takes place at the beginning of each autumn and spring semester: an opportunity to better discover the environment of your Faculty of Medicine and Maieutics and the Catholic University of Lille as well as the other students.

HEALTH

➤ Mission reception disability

A referent is at your disposal to accompany you in your course within the faculty, also trained as a first aider: Isabelle Flamen
isabelle.flamen@univ-catholille.fr
Tél. 03 20 13 40 62 / 06 45 49 51 53

➤ The CPSU, a university health centre

is at your disposal at 47 bis rue du Port for all consultations of general medicine, psychologist and social worker as well as for the update of vaccinations.

Feel free to contact:

<https://lesfacultes.univ-catholille.fr/fr/sante-CPSU>

RESTAURATION

➤ Restaurant Universitaire

The « ALL » accompanies students in their daily life through five units dedicated to student life: catering, housing, health, social and sport. More information : www.all-lacatho.fr/en
4 university restaurant chains are available within a 5-minute walk from the FMMS. Opening hours are from 11am to 3pm and 6.30pm to 8.30pm from Monday to Friday lunchtime.
The rate is 3,25€ per meal.

SPORT ACTIVITES

A gym and fitness room is open to all near the FMMS at 48 bd Vauban, Monday to Friday from 7:30 am to 9:30 pm.

Contact :

www.all-lacatho.fr/fr/content/101-sport

TRANSPORT

You can benefit from student rates up to the age of 25 years in all transports : (metro/bus/tramway/train) with a youth pass:

www.ilevia.fr/fr/4-25ans/14-4a-25ans-mensuel.htm

PLAN D'ACCÈS

➤ By bus

- By line 12 or line 5, boulevard Vauban/ Université Catholique de Lille stop
- By line 18, stop rue de Toul

➤ By metro

- Line 2: Cormontaigne or Port of Lille stops
- Line 1: Gambetta stop

➤ V'Lille

(self-service bicycle hire) www.vlille.fr

WHERE TO STUDY YOUR COURSES?

Work rooms

are reserved for FMMS students
Monday to Friday from 7:30 am to midnight, Saturday from 7:30 am to 8 pm and Sunday, holidays and bridges from 8 am to 8 pm.

The University Library (BU)

is open Monday to Friday from 8:30 am to 8 pm and Saturday from 8:30 am to 5 pm at 60 rue du Port in Lille with work rooms available.

Catalogue available on:
<http://lol.univ-catholille.fr>

HOUSING AND COST OF LIVING LILLE

The French Ministry of the Interior advises a minimum budget of 615€ per month to live in Lille. We advise a higher threshold of 800€ per month.

The cost of accommodation is relatively high; you need to make arrangements in advance in order to benefit from a "good plan" or to find a flat share.

You will be asked for many documents and guarantees to obtain a rental: *prepare at least 3 pay sheets from your parents, financial guarantees and a certificate of registration with the FMMS.*

Important (and very useful): a free service is at your disposal for your installation in Lille. It is the "Livin'France" platform:

<https://livin-france.com/school/lesfacultes.univ-catholille>

There are also other rental offers:

<https://lesfacultes.univ-catholille.fr/fr/logements-etudiants>

If you have financial problems or are in a precarious situation

- you can go to the AGORAE solidarity grocery shop: www.facebook.com/AgoraeLille

- you can contact: solidarite@all-lacatho.fr

TIPS IN LILLE

In order to better prepare for your arrival, you will find below some useful links to guide you:

➤ **To take French or other foreign language courses:** www.flsh.fr/lettres-et-sciences-humaines/clarife/

➤ **A system of mentoring and meetings between local and foreign students within the FMMS** is organized during the "Welcome Session" in September and January: they allow to meet foreign students from other faculties (humanities, political science, economics and management, etc.).

➤ **The Corporate Association of Medical Students (ACEM) and the Corporate Association of Midwifery Students (ACESF)** organize sports activities, student parties, outings and cultural activities in the Lille metropolis, conferences, events and humanitarian actions (blood donation, Sidaction, Telethon...).

www.facebook.com/acem1910 www.facebook.com/acesf

➤ Meet other international students hosted at the Catholic University of Lille
www.facebook.com/groups/613976295735879/

➤ Discover also addresses recommended by people from Lille on the "USE IT Map of Lille" to discover the city in an alternative way!

USAGE AND NAMES OF COURSES ON AGORA

To help you find your way around when choosing your courses on Agora (only in French):

- 1** You must only choose the courses and training courses mentioned in your "Learning Agreement".
- 2** Courses are classified by years of study: FASM1 / FASM2 then by discipline: paediatrics, urology...
- 3** The lectures are NOT courses: you can register to attend them but they do not give access to possible ECTS credits.
- 4** The Erasmus Internship (« Stage Erasmus » in French) is to be selected at the very bottom of the drop-down list.

On arrival, you are asked to make an appointment at the FMMS International Relations Office to check your choices on Agora.

Course names on Agora

- Pneumology = « Système respiratoire »
- Cardiology = « Système cardio-vasculaire »
- Neurology = « Système nerveux »
- Ophthalmology and otolaryngology = « Spécialités Faciales »

For the other disciplines, the designations are identical than the traditional name of the field.

MEDICAL FORM

MEDICAL FORM

Version 05/05/2023 / CPSU - FMMS

It is mandatory to fill in this medical form (English OR French version) for your admission to the Université Catholique de Lille : it is for public health purposes only.

Without this medical form, you CANNOT DO A HOSPITAL INTERNSHIP

Please have this document filled in and signed by your doctor and:

- Send it to le Dr Masset : cecile.masset@all-lacatho.fr
- You must send in this form at least 1 MONTH BEFORE your arrival. Without this validated document, you will not be able to access the internship.

This document will only be consulted by the University doctor.

If you have a disability that requires special assistance or if you have specific learning arrangements at your home university, please contact our University Doctor directly.

Name: _____ **First name:** _____
Date of birth: _____ **Email:** _____
Are you coming as an Exchange student? Yes No
Home country: _____

I, the undersigned Dr.....certifies that Ms/Mr does not carry any contagious disease* (with the exception of COVID-19) and that she/he has no health problems that prevents her/him to study at the Université Catholique de Lille.

I can confirm that she/he has made the following 3 vaccines (mandatory for studying in France):

Vaccine against	Date of vaccine	Name of vaccine	Date of last booster
Diphtheria, tetanus, polio, whooping cough (pertussis) (Vaccination of less than 20 years old: if not, get a booster vaccination before your arrival)			
Measles, Mumps, Rubella			
BCG (If you did it)			
Hepatitis B (3 vaccinations)	At Day Zero : A + 1 month : A + 6 months :		
TESTS		Results	Date
PPD test or tuberculin test (Mantoux Test)			
Hepatitis B serology : AC anti hBs Minimum 1 month after the 3 hepatitis B injections (or chest x-ray)			

Please also fill in this table about other diseases

Diseases	Date of vaccine (if done) :	Name of vaccine (if applicable) :	
Meningitis			
Flu			
Covid			

Place: _____

Date: _____

Doctor's signature and stamp

* A disease that can spread quickly to others and may have life threatening consequences (eg meningitis, tuberculosis...)

What is the process step by step for your French health insurance?

And yes, another procedure! But this one involves your health, so you absolutely have to take care of it! Don't panic, we'll explain to you how to do it step by step 🐾

How to apply

1. Go to [etudiant-etranger.ameli](https://etudiant-etranger.ameli.fr)
2. Fill in your situation
Student with/without professional activity, date of birth and nationality
3. Fill in your personal information, your French contact information and your contact information
4. Upload the requested documents
To know more about the [required documents](#)

Other documents may be required depending on your country of origin.

Creating your personal space

Once you have made your application, you will have access to your personal space on the following website: <https://etudiant-etranger.ameli.fr/espace/#/>

You will be able to follow the progress of your application, download your temporary health insurance certificate which you will receive it 3 weeks after your application and other documents you may need.

If you do not receive your temporary health insurance certificate within 3 weeks of your application, you should contact the nearest CPAM.

Completing your application

Within 8 months after your application, you will receive your final health insurance certificate allowing you to register on the [ameli](#) website where you can

- Apply for your "carte vitale"
- Follow the reimbursements of the social security
- To declare your attending physician etc...

And because we are nice, we made you an explanatory video to accompany you in this step
